PRODUCTS

Our risk appetite and high level of professional service will deliver tailored solutions for your clients.

Financial Institutions: Professional Indemnity

This protects businesses and professionals from the financial consequences of their legal liabilities to third parties arising from breach of their professional duty.

Certain professionals, such as stockbrokers or securities dealers, are required by their professional bodies to buy this type of protection.

Most financial institutions purchase this type of cover in order to protect them from litigation brought against them by clients or other third parties alleging breaches of professional duties.

Financial Institutions: Directors' & Officers' Liability

This protects directors and officers of public, private and not-for-profit financial institutions against loss arising out of their status or conduct as directors or officers.

As businesses become more regulated through increased levels of corporate governance, EU directives, health and safety regulations, etc., the scope for suing individual directors and officers increases. The consequences of this can be severe, and our products are designed to protect policyholders against such risks.

Comprehensive / Commercial Crime

Comprehensive Crime insurance protects private or publicly-traded financial institutions for loss of assets (including cash, bullion, securities documents or similar valuable assets) from either employee fraud or losses caused by third parties occurring through robbery, forgery, counterfeiting, transfer fraud or computer fraud. We also offer Commercial Crime insurance to non-financial companies.
